

CAT and Genny (Radiodetection C.A.T4 Series) Training Course

Aim

To provide awareness and competence training in the use of cable locators (Radiodetection C.A.T4 Series). The use of cable locators is widely recognised as one of the key steps to reducing cable strikes.

Who Should Attend?

Our CAT and Genny training courses are suitable for anyone involved in operations where ground is to be broken or spiked, this includes excavation operators and utilities personnel as well as supervisors and managers. No previous experience is necessary although some practical experience of groundwork and excavations would be beneficial.

What Will You Get From the CAT and Genny Course?

Our CAT and Genny Training Course delivers four hours of theory and practical instruction. When carrying out any excavation work for utility or other purposes, it is important to ensure that all underground services are effectively located and avoided. The course includes the following:

- The reasons for using locators
- Safety
- Plans
- HSG47 (Avoiding danger from underground services)
- Range of features available on the C.A.T4 Series
- The theory of locating services

- Range of modes:
 - Power
 - Radio
 - Genny
 - Depth measurements
- An outside practical session using the Radiodetection C.A.T4 and Genny4 Series
- Written assessment

Opti-cal Survey Equipment provides training in using CAT & Genny equipment to locate buried cables and underground utilities. CAT & Genny training courses cover use of the Radiodetection C.A.T3, C.A.T4 and Genny4 equipment. All trainers are manufacturer certified and upon successful completion of the course a certificate will be issued.

Course Summary

- Course duration: half-day (4 hours)
- Maximum number of delegates: 8
- Delivery method: classroom based theory, practical training and assessment

By the end of the course delegates will be competent in locating buried services using Radiodetection C.A.T3, C.A.T4 and Genny4 equipment.

Site-Based Training

We can offer training sessions at your sites or offices; all we would need is parking facilities, a suitable room where we can give a PowerPoint presentation and a site outside with buried metallic utilities for the practical part of the training. **Please call for a quotation.**

CAT and Genny Training

We will be holding regular CAT and Genny user training courses on Radiodetection C.A.T4 Series Locators, at our service centres throughout the UK. Please see below for locations and contact details to book your place.

1st Wednesday of every month at:

Opti-cal Gatwick

To book call Sam Cassidy on 01293 538730

Opti-cal Wakefield

To book call Dave Bullock on 01924 792183

2nd Wednesday of every month at:

Opti-cal Bristol

To book call Rebecca Wise on 0117 959 5810

Opti-cal Livingston

To book call Gillian Smith on 01506 674990

3rd Wednesday of every month at:

Opti-cal Milton Keynes

To book call Mark Horwood on 01908 683726

Opti-cal Reading

To book call Samantha Burke on 0118 982 0500

4th Wednesday of every month at:

Opti-cal Gatwick

To book call Sam Cassidy on 01293 538730

Opti-cal Wakefield
